

PART 1 : Java Basics (40 Programs)

- 1. Prime Number*
- 2. Palindrome Number*
- 3. Armstrong Number*
- 4. Strong Number*
- 5. Perfect Number*
- 6. Neon Number*
- 7. Spy Number*
- 8. Duck Number*
- 9. Sunny Number*
- 10. Automorphic Number*
- 11. Reverse Number*
- 12. Sum of Digits*
- 13. Product of Digits*
- 14. Count Digits*
- 15. Largest Digit*
- 16. Smallest Digit*
- 17. Even/Odd*
- 18. Leap Year*
- 19. Swap Numbers*
- 20. Fibonacci*
- 21. Factorial*
- 22. GCD*
- 23. LCM*
- 24. Power*
- 25. Square Root*

- 26. Decimal to Binary*
- 27. Binary to Decimal*
- 28. Octal Conversion*
- 29. Hexadecimal*
- 30. Random Number*
- 31. ASCII Values*
- 32. Character Frequency*
- 33. Vowels*
- 34. Prime Factors*
- 35. Perfect Square*
- 36. Perfect Cube*
- 37. Happy Number*
- 38. HCF*
- 39. Number Pattern*
- 40. Bit Manipulation Basics*

PART 2 Arrays (50 Questions)

- Largest Element*
- Second Largest*
- Third Largest*
- Remove Duplicate*
- Rotate Array*
- Reverse Array*
- Move Zeroes*
- Missing Number*
- Kadane Algorithm*

- *Majority Element*
- *Merge Arrays*
- *Union*
- *Intersection*
- *Two Sum*
- *Three Sum*
- *Four Sum*
- *Prefix Sum*
- *Sliding Window*
- *Binary Search*
 - *Peak Element*

PART 3 Strings

Palindrome

Reverse

Anagram

Frequency

Remove Spaces

Compress String

Longest Substring

Permutations

Subsequence

Pattern Matching

KMP

Rabin Karp

Z Algorithm

PART 4 Linked List

Reverse

Middle

Loop Detection

Merge

Delete

Nth Node

Intersection

Circular Linked List

PART 5 Stack

Balanced Parentheses

Next Greater Element

Stock Span

Min Stack

Largest Rectangle

Expression Evaluation

Infix

Postfix

Prefix

PART 6 Queue

Queue using Stack

Stack using Queue

Circular Queue

Priority Queue

Deque
